Experience

I am a fresher.

Education

Vaish College of Engineering (Maharshi Dayanand University)

AUGUST 2021 - PRESENT , ROHTAK

Bachelor of Technology: Electronic and Communication Engineering

I am in my 4th year.

Ambedkar Institute of Technology (Guru Gobind Singh Indraprastha University)

AUGUST 2018 - JULY 2021 , NEW DELHI

Diploma: Digital Electronic Engineering

83.4%

SKV C-1 Yamuna Vihar (CBSE)

APRIL 2017 - MAY 2018 , NEW DELHI

69.8%

Projects

Automatic Plant watering system by Arduino

We worked on automating the watering system to plants. When a soil moisture sensor touches a soil then water automatically goes to the plant and this is the whole process because of programming in Arduino to control the watering system. I wrote a code in Arduino. We , as a team successfully wrote efficient code and coordinated to develop this fully functioning product that could reduce that effort in gardening.

Automatic dustbin by Arduino

It is an automatic dustbin by Arduino when the ultrasonic sensor sense the garbage so the automatic dustbin box will be open.
